

ITIL v3 INTERMEDIATE COURSE : SERVICE OFFERINGS AND AGREEMENTS

Course Description:

The intermediate level ITIL® v3 (version 3) Service Capability Module “Service Offerings and Agreements” offers candidates the ability to obtain role-based hands on experience in a specific cluster of processes according to ITIL v3. This 4-day training includes an optional exam. Passing this exam adds 4 credits towards the 22 required credits to enter the advanced level in IT service management certification based on ITIL v3. Each module of the capabilities series covers a specific cluster of ITIL v3 processes tailored to relevant roles.

Course Approach :

During this 4-day instructor-led course, participants will obtain knowledge and hands-on experience in Service Offerings and Agreements. A mixed balance of practical assignments and lecturing, reinforce knowledge and boost capabilities on the subject. Interactive lessons and lectures prepare participants for the optional exam: ITIL v3 Capability Module Service Offerings and Agreements.

Main Objectives

Candidates can expect to gain competencies in the following upon successful completion of the course:

- Service Management as a practice.
- The following processes across the Service Lifecycle pertaining to the Service Offerings and Agreement curriculum: Service Portfolio Management, Service Catalogue Management, Service Level Management, Demand Management, Supplier Management, Financial Management.
- Operational activities of processes covered in other lifecycle phases such as Incident and Change Management.
- Common Service Operation activities related to Service Offerings and Agreement.
- Organizing for Service Operation which describe functions to be performed within Service Offerings and Agreement.
- Service Offerings and Agreement roles and responsibilities.
- Technology and implementation considerations.
- Challenges, critical success factors and risks.
- CSI as a consequence of effective Service Offerings and Agreement.

Audience:

This course will be of interest to:

- Individuals who have their ITIL v3 Foundation Certificate (or the ITIL v2 Foundation + v3 Foundation Bridge certificate) who want to pursue the intermediate and advanced level ITIL certifications.
- Individuals who require a deeper understanding of the various modules of Service Offerings and Agreements and how activities in this Capability modules may be implemented to enhance the quality of IT service management within an organization
- IT professionals who require to understand the concepts, processes, functions and activities involved.
- Individuals seeking the ITIL Expert certification in IT Service Management for which this qualification is one of the prerequisite modules
- Individuals seeking progress towards the ITIL Master in IT Service Management for which the ITIL Expert is a prerequisite
- A typical role includes (but is not restricted to): CIOs, CTOs, managers, supervisory staff, team leaders, designers, architects, planners, IT consultants, IT audit managers, IT security managers, service test managers and ITSM trainers involved in the management, coordination and integration of strategy activities within the Service Lifecycle.
